The above chart is representative of interchangeable lubricants to the best of our knowledge and ability. As exact duplicates are not necessarily available from all companies, some minor compromises are included, which should in no way affect performance. All are good products from reputable suppliers. Designations, trade names or numbers undergo periodic changes, and current recommendations may be obtained from your Star Metal Fluids LLC representative when required. The above cross-references are issued for general guidance, and we cannot accept responsibility for errors nor guarantee the suitability of products listed. Our fluid application specialists will be happy to make specific recommendations as needed.
