BIOACT® SC-10E

Product Description

BIOACT SC-10E Cleaner is a high performance electronics cleaner designed for hand wipe and immersion applications. It is based on a mixture of citrus terpenes, highly refined polar and non-polar solvents. BIOACT SC-10E is selected when a fast drying solvent with excellent solvency, good soil loading and low surface residues is required. It effectively removes flux residues, uncured Surface Mount Device (SMD) adhesives as well as acrylic conformal coatings and tape residues. BIOACT SC-10E is a suitable replacement for isopropyl alcohol (IPA) and hydrocarbons.
